JUICES CLASSIFIED by Benefit

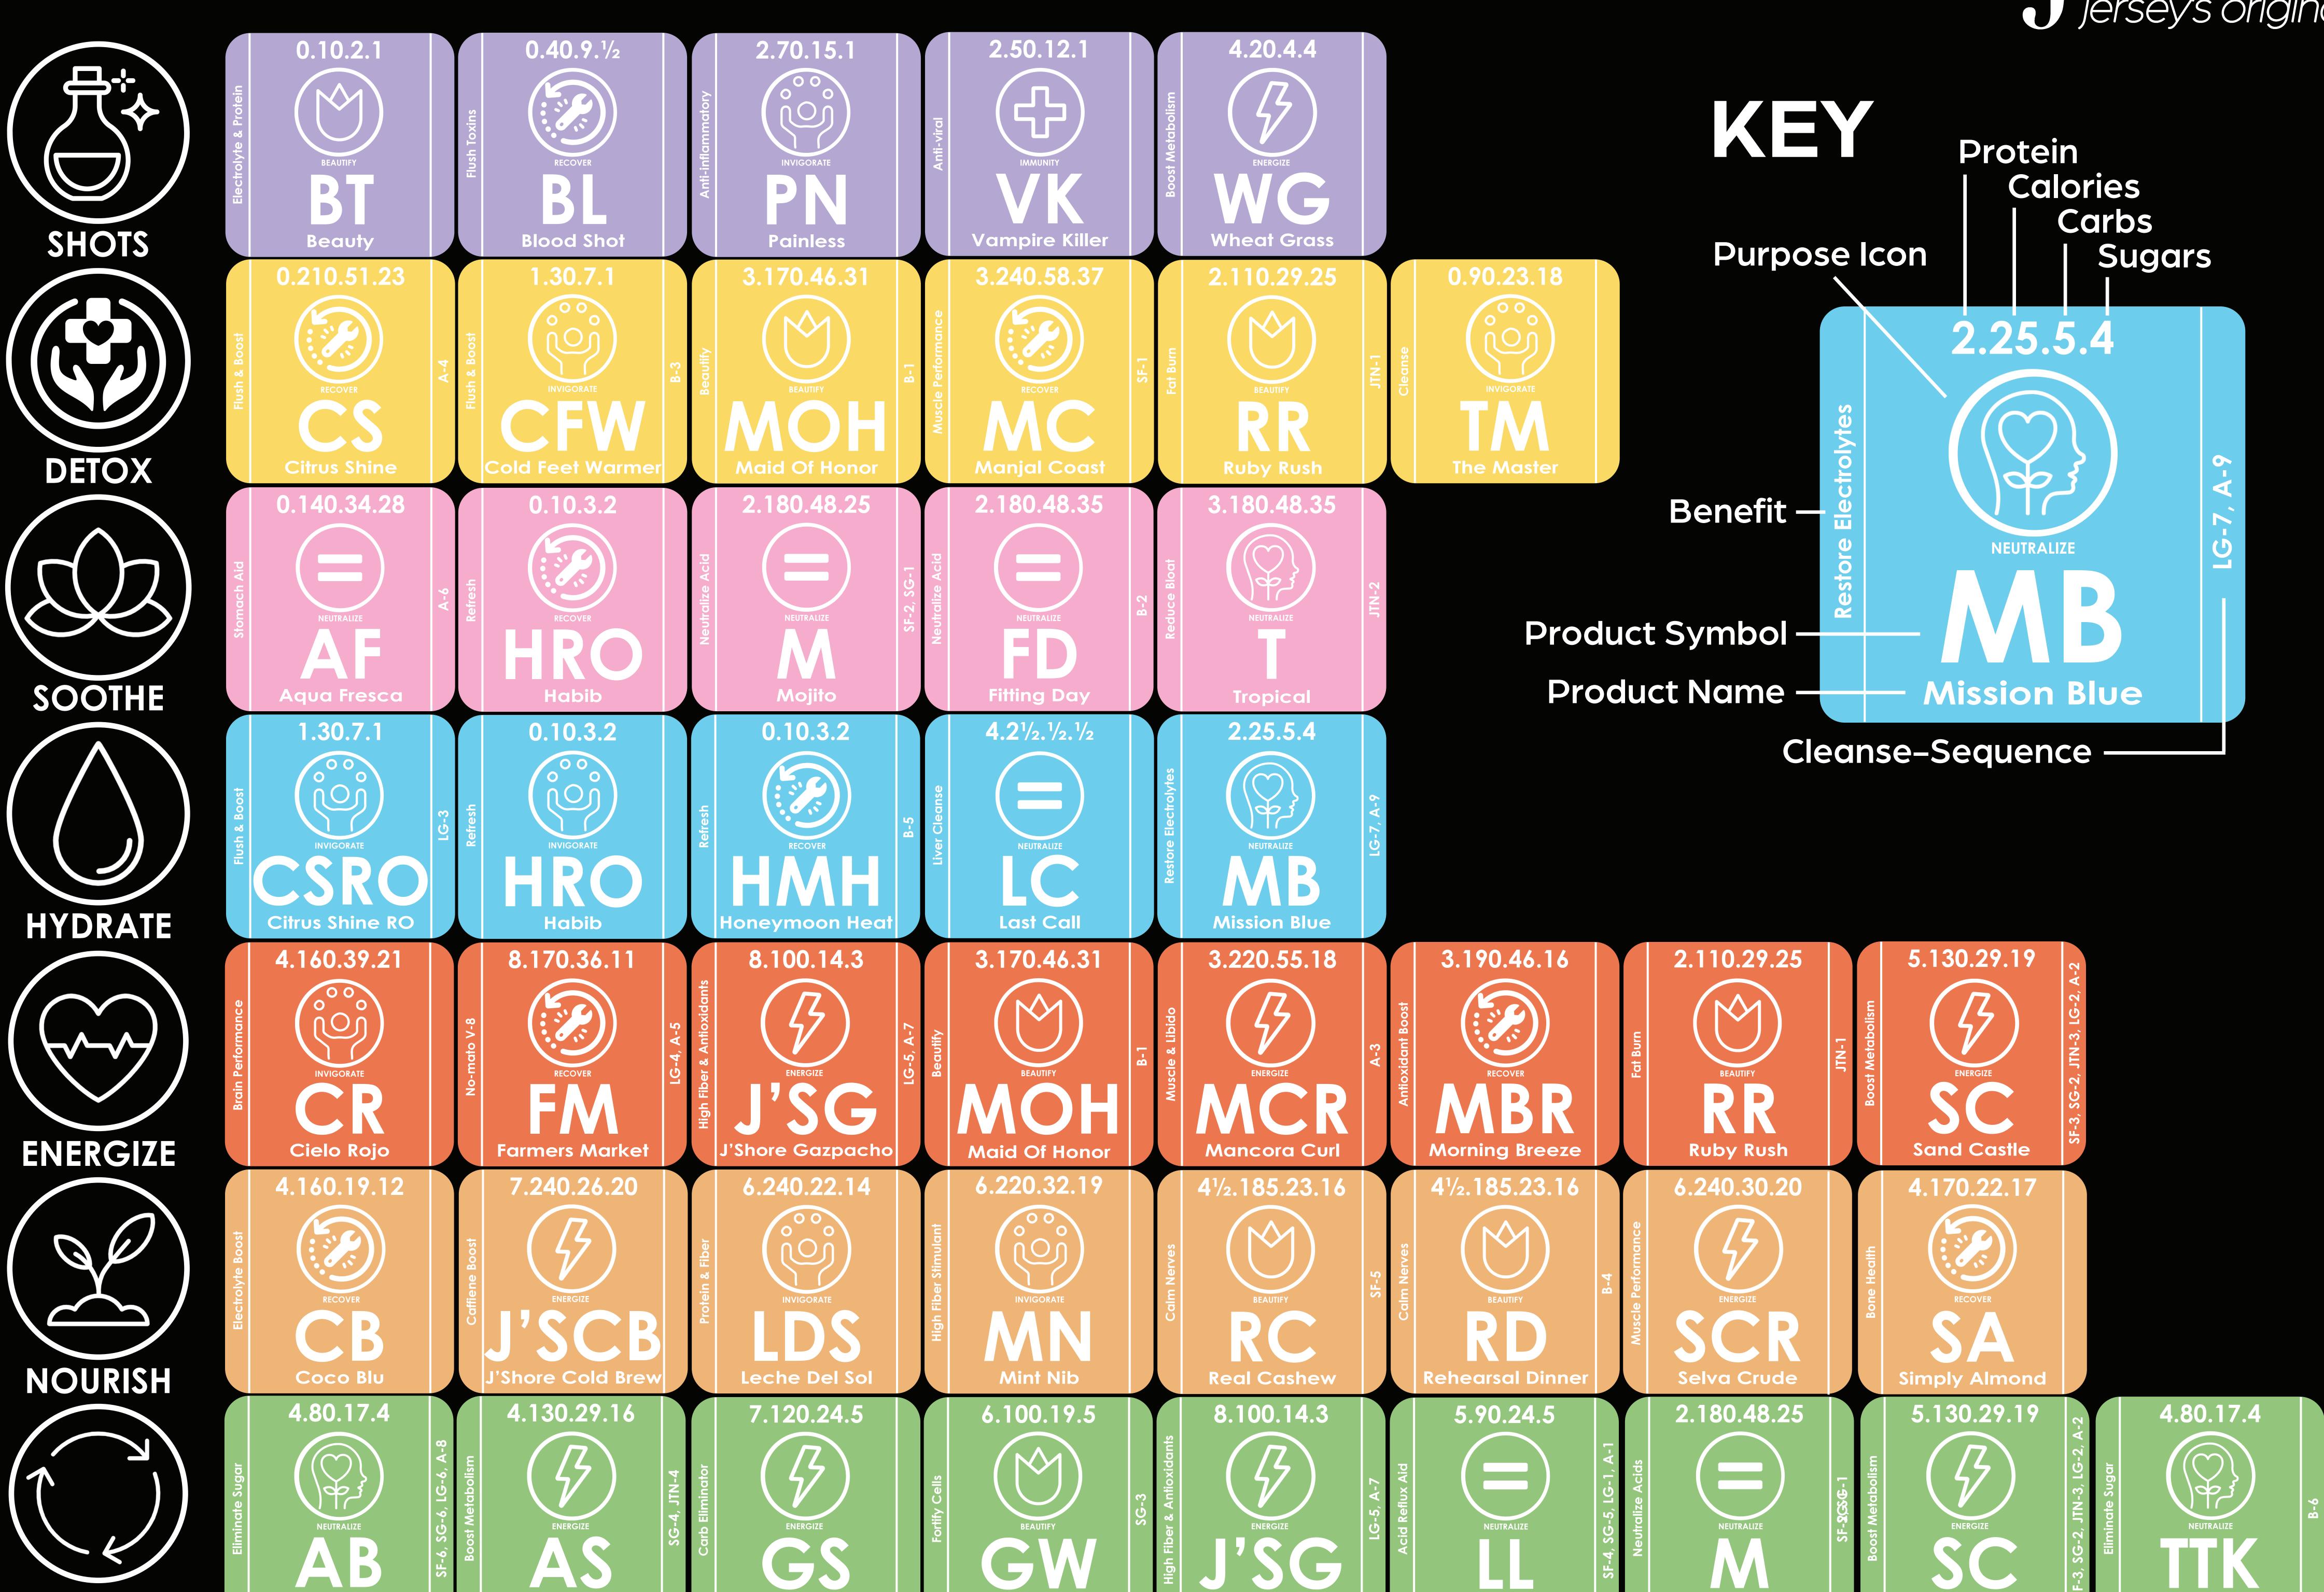

Since Juice Science Matters and there are over 50 juice basin flavors to select from, we provide the necessary tools for you to determine which fresh, USDA organic & FDA certified products fit your purpose.

How do we classify them? The juice basin periodic table organizes our bottled products in rows and columns by an ingredient purpose system based on elimination, distribution, metabolism, absorption, and restoration. Collectively these vital functions contribute to maximum wellness. Certain juices are HYBRID meaning they satisfy more than one purpose.

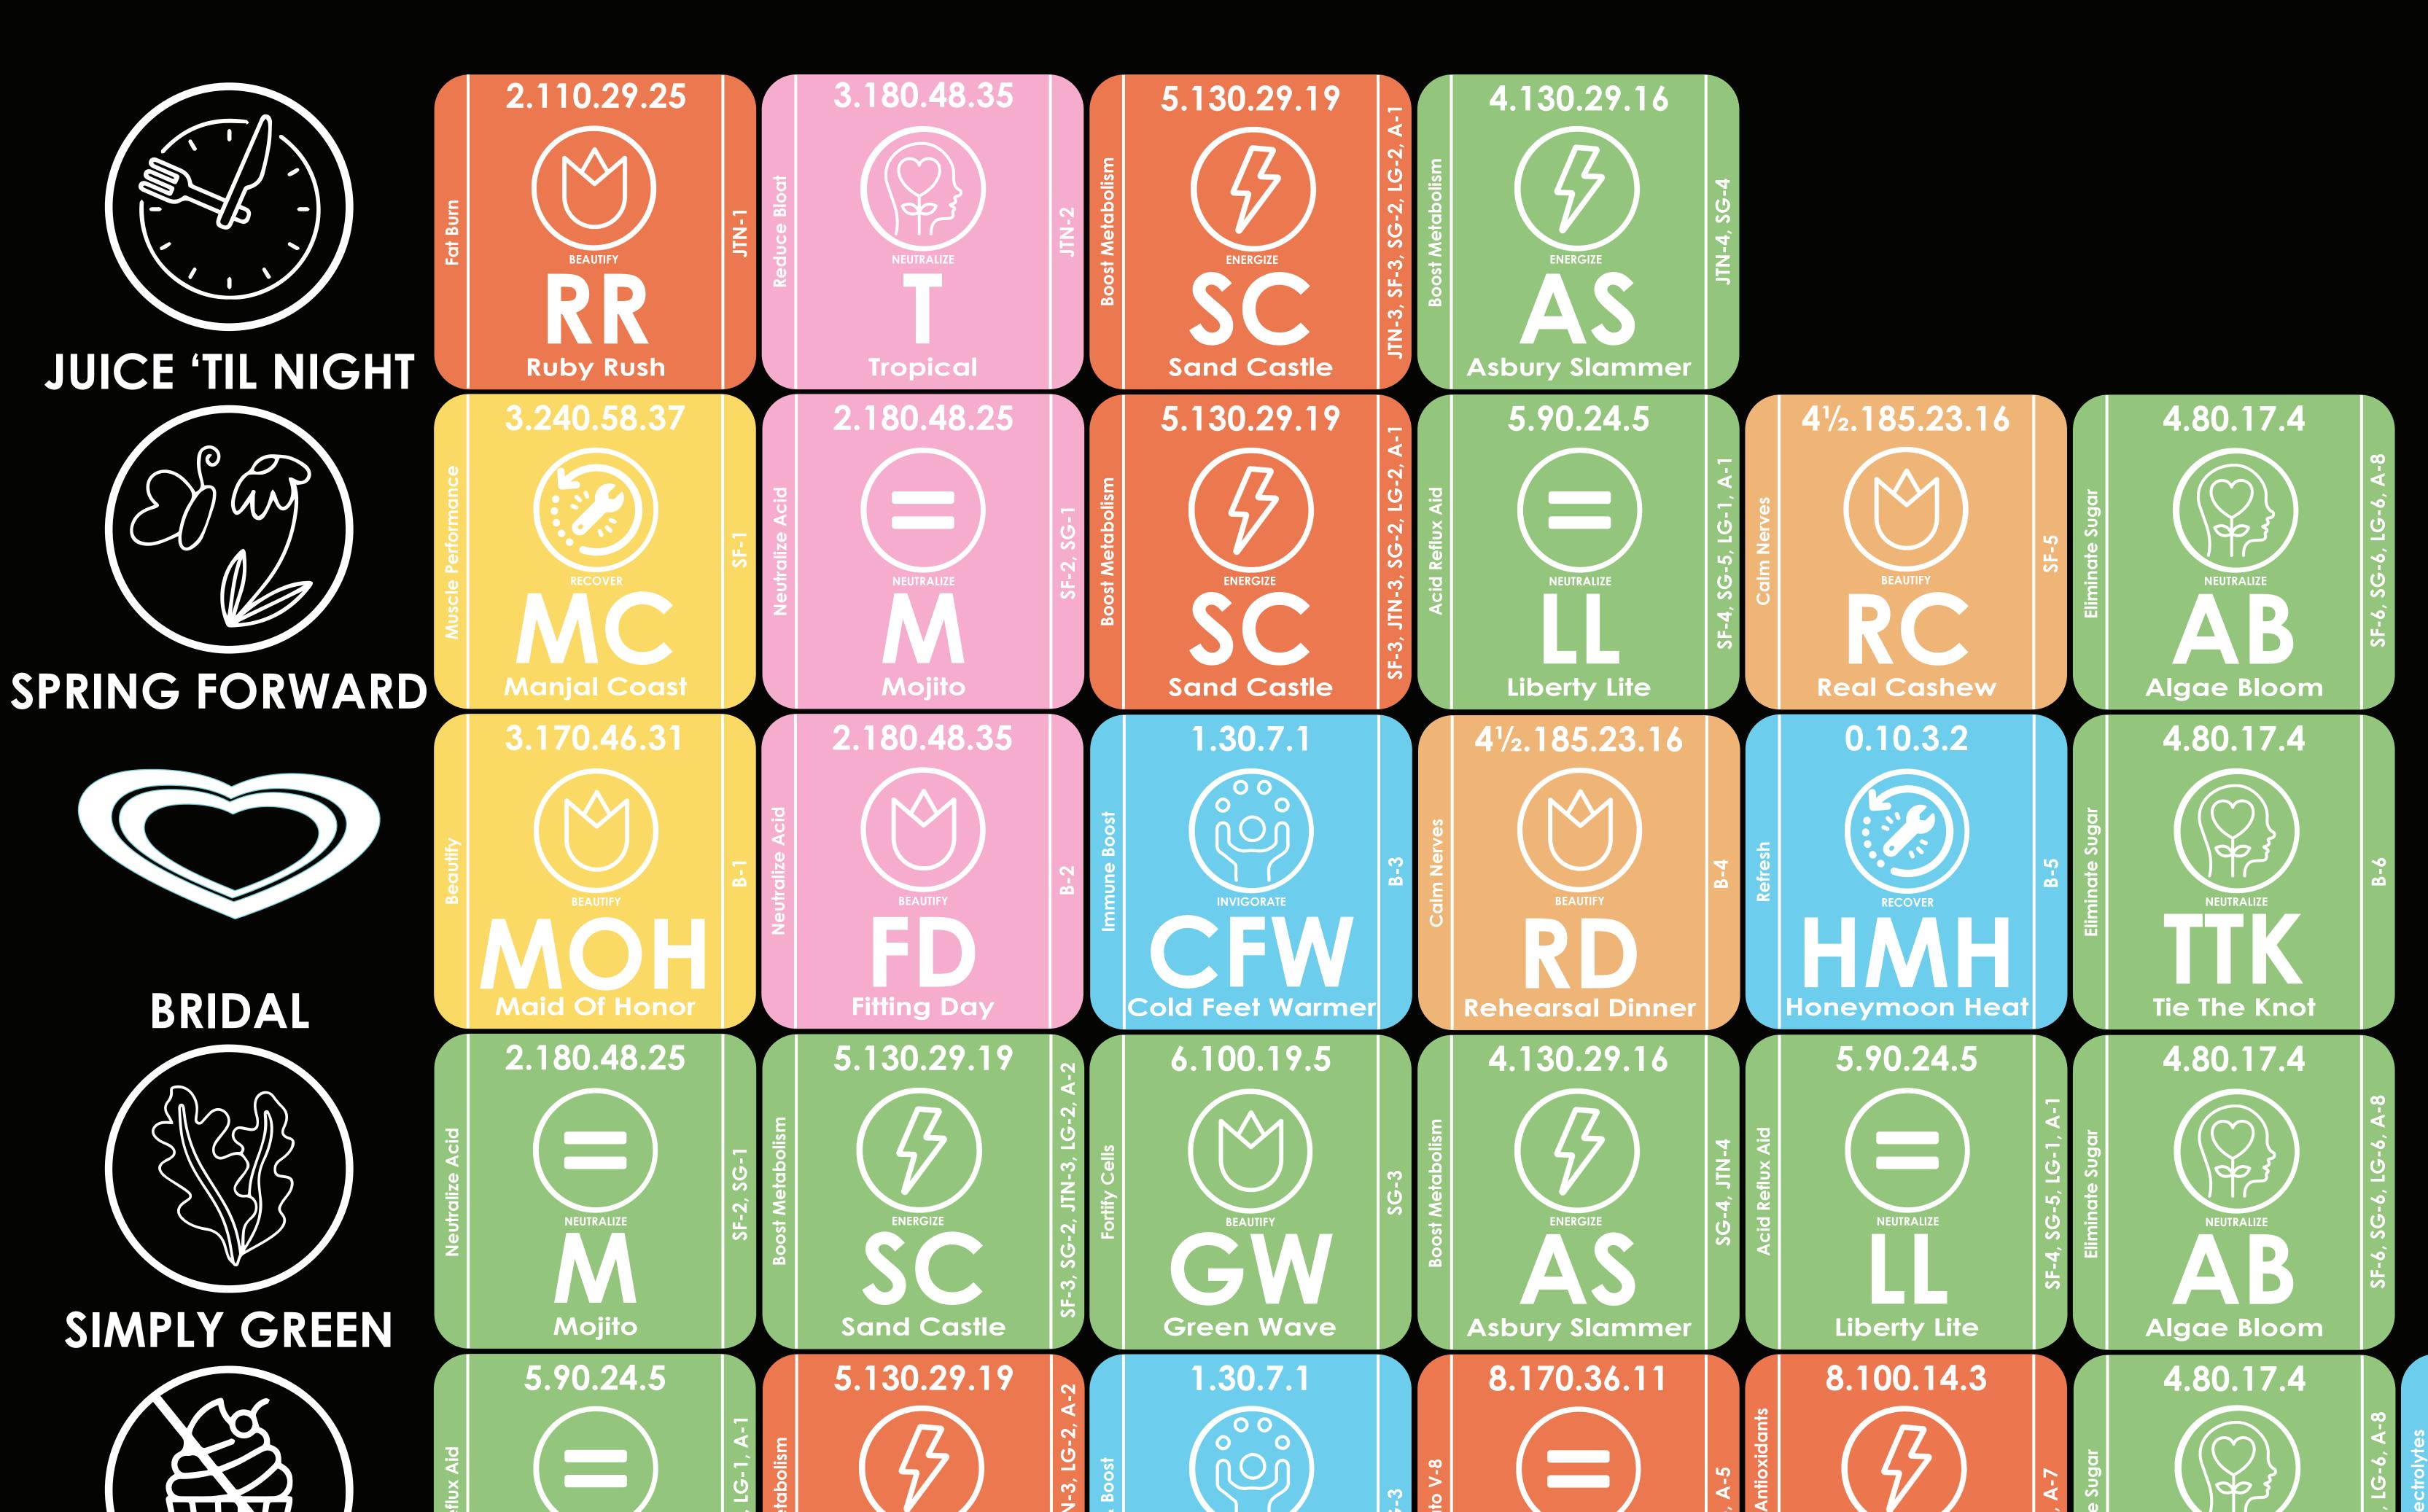

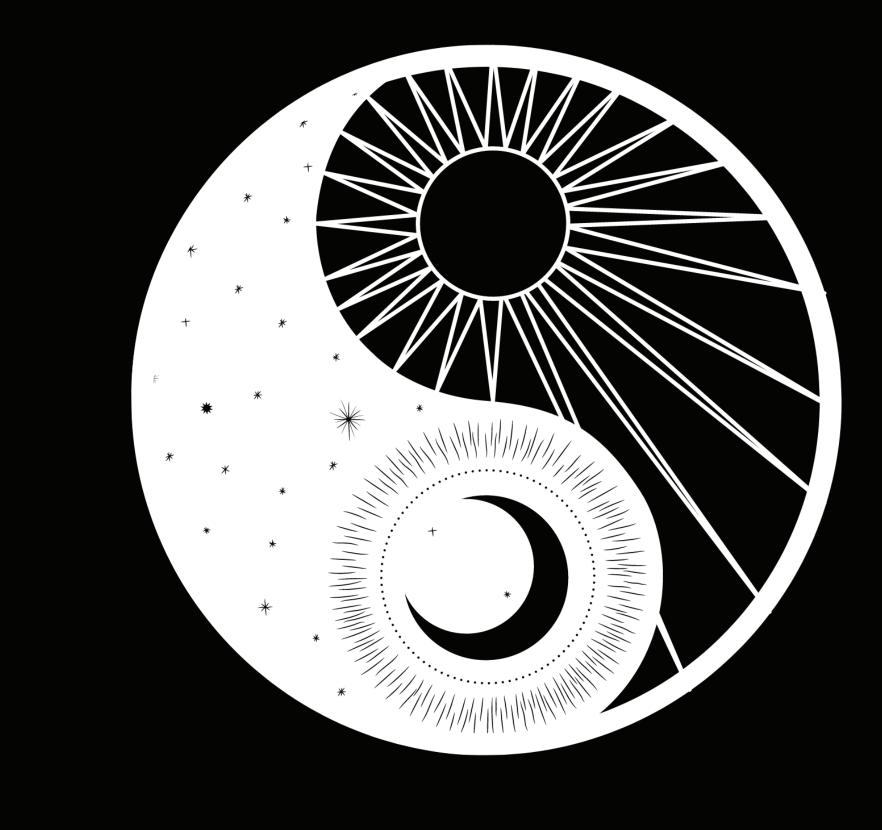

Periodic Table of Juice © 2022 Regina Flimlin A Scientific Guide to Fueling Your Purpose

CLEANSES are juice basin products arranged in groups determined by lifestyle demands, daily bottle consumption and purpose commitment. The power of handmade, cold pressed juice, sourced from organic plants provides necessary energy requirements and nutritional values essential to ward off hunger, yet yield desired results.

CLEANSE GUIDE

AM
activate digestion
& eliminate gunk

NOON
distribute nutrients,
eliminate toxins
& soothe

PM stimulate metabolism & absorb nutrients

restore organs & reconnect
